

City of Gallup Alley Fiber Project

As part of the Alley Beautification Project, the City of Gallup has partnered with Comcast, Sacred Wind, and CenturyLink to move our communications lines from the existing telephone poles to underground.

This project will start on October 15th and last until approximately January 15th, 2020. It will run from 1st to 5th Street in the alley between Aztec Avenue and Coal Avenue.

We will start at 5th Street and do one block at a time. Each block will take approximately two weeks to complete. During this time, that portion of the alley will be completely blocked with no access.

We will notify business owners one week prior to starting that will be affected by the closure. The Solid Waste department will make arrangements with you regarding refuse pick-up. You will have to make arrangements for service deliveries either outside of the construction time-frame or utilizing the front entrance.

We apologize in advance for any inconvenience as we improve the safety and appearance of this alleyway. If you have any questions or concerns, please contact Brian Archuleta (Project Manager) at 505-863-1301 or e-mail at barchuleta@gallupnm.gov

Thank you!

Brian C. Archuleta
